Location: Aligarh, Uttar Pradesh, India

Contact: +91 6397895597

Professional Summary

Motivated and detail-oriented developer with **2 Years** of hands-on experience building responsive, scalable web applications using **React.js, Next.js, JavaScript, Tailwind CSS, C# and ASP.net core**, Proficient in creating user-friendly interfaces, developing RESTful APIs, and managing data with **SQL Server**. Skilled at integrating frontend and backend systems to deliver seamless user experiences. Passionate about writing clean, maintainable code and contributing to impactful, tech-driven projects.

Technical Skills

Languages: HTML, CSS, JavaScript, C#, SQL

Frontend: React.js, Redux, Context API, Next.js, Tailwind CSS, Bootstrap

Backend: ASP.NET Core, Node.js, Express.js

Database: SQL Server, Mongo DB,

Tools: Git & GitHub, Vercel, VS Code, Postman

Others: REST APIs, Responsive Design, SEO Basics, Linux

Work Experience

Software Developer

NextGenVision Technology, Noida

May 2024 – Present

- Developed responsive UI components using React.js and Next.js
- Integrated front-end with .NET Core APIs for real-time features
- Contributed to telecom dashboards and plan management modules
- Optimized performance using SSR and dynamic routing in Next.js
- Used AI tools (Cursor AI, ChatGPT, V0.dev) for rapid prototyping
- Ensured cross-browser and cross-device compatibility with clean, reusable code

Software Engineer Intern

Influence Technolabs, Delhi

May 2023 – May 2024

- Assisted in building and maintaining UI features with React.js
- Gained hands-on experience integrating RESTful APIs
- Collaborated with the team to enhance UX and fix front-end bugs
- Practiced writing clean, reusable, and well-documented code for scalability

Projects

Chat Application | [Link](#)

Real-time chat application allowing users to register, log in, and exchange messages instantly in a secure environment.

Technologies: React.js, Firebase (Authentication, Firestore), JavaScript, HTML, CSS

- Implemented Firebase Email/Password authentication
- Built real-time chat with Firestore syncing
- Designed mobile-responsive UI with auto-scroll and timestamps
- Ensured message persistence and smooth chat experience

Food Ordering Web App | [Link](#)

Full-stack food delivery app built with Next.js and Context API.

Technologies: Next.js, Context API, Tailwind CSS

- Implemented dynamic restaurant listings, cart, and order features.
- Used Context API for global state management (cart, user).
- Add User Authentication using Local Storage.
- Optimized performance with server-side rendering and clean UI.

E-commerce App (MERN Stack)

Responsive e-commerce platform with full shopping experience.

Technologies: MongoDB, Express.js, React.js, Node.js, Context API

- Created dynamic product pages, cart, and checkout system.
- Built and connected RESTful APIs for products, users, and orders.
- Managed state efficiently using Context API for scalability.
- Integrated JWT authentication and responsive UI for all devices.
